

## SECONDARY SCHOOL

For all students, who has not yet decided about their future and career or jobs. They have got 3 years to decide whether to continue studying or to choose a job. The main subjects are: BIOLOGY, GEOGRAPHY and ENGLISH. The second foreign language is FRENCH or GERMAN.

## NEW!!! HOTEL TECHNICIAN ( TECHNICAL HOTEL COLLEGE )

Jobs connected with hotel services, touristic attractions and comfortable accommodation are becoming more and more popular nowadays.

Here, in Grzybno, we see the necessity of creating ne opportunities for those students who want to be “ PEOPLE PROFESSIONALS” in that particular area.

We offer a full cycle of education including:

- hotel work organization
- promotion of hotel services
- marketing classes
- organization of free time attractions and activities
- promotion of local touristic attractions

Being a part of the “ LEONARDO DA VINCI PROGRAM”, we also plan to organize special trainings that are a good preparation for any career but especially those in the European Union countries.

## A HORSE BREEDER- TECHNICAL SCHOOL

Many young people want to connect their future and career with horses. These wonderful animals demand a lot of interest and care but can also be used for many interesting activities:

- horse riding
- carriage riding
- helping disabled people

For those who would like to run “ horse business ” in the future- this is a perfect choice. Students have an opportunity to learn a lot about horses, learn how to take care about them(practical classes in the stables). We offer professional teaching and training in Jaskowo Horse Riding Center.

## LANSCAPE ARCHITECTURE DESIGNER

We all want to be surrounded by beautiful nature : forests, gardens, lakes and ponds.

Everyone would like to live close to nature, have nice, green places to relax after work, to live a calm, healthy life.

We have got a special offer for those who not only want to live like that but also want to create beautiful green areas: gardens, parks and water facilities.

Students learn not only basic subjects but also have many various professional classes like garden and lanscape designing, garden and greenhouse works, conservation of gardens and green areas. A well designed and planned garden makes a perfect combination with every house and any other place we live in.

## FARMER

It is one of the main and most important learning profiles in Grzybno for many years.

Each year, many fully educated professional farmers successfully finish their education, leave school and start working in their own farming business which often is a family business. They have their own, modern farms and they run them with success.

The school offers the opportunity to learn all subjects connected with the profession of a farmer, including : PLANT and ANIMAL PRODUCTION, AGRICULTURE TECHNIQUES, MODERN, MULTIPURPOSE FARMING MACHINES and many more.

Students also learn how to apply for money from special European Union Funds and how to use them properly and effectively to improve their work on the farms and make the hard work easier.

## NEW!!! TECHNICIAN OF LOGISTICS

It is one of the most popular studying profiles at our school although it is so new!

This profile was opened and created for those, who have just finished school and want to continue studying and complete education in a new area with wide and interesting perspectives.

The subject is connected with the flow of information, goods and money between companies and factories.

Building industry, trade, services, telecommunication and many other branches of industry continually look for professional workers and managers in this particular occupation.
